WORK EXPERIENCE

Software Engineering Fellow • Internship

Headstarter • Remote • July 2024 - Present

- **Built 5+ AI apps** and APIs using NextJS, OpenAI, Pinecone, StripeAPI with **98% accuracy** as seen by 1000 users
- Developed projects from design to deployment **leading 4+ engineering fellows** using MVC design patterns
- **Coached by Amazon, Bloomberg and Capital One engineers** on Agile, CI/CD, Git and microservice patterns

EDUCATION

Bachelor of Science in Electrical Engineering

Texas A&M University • College Station, TX • August 2023 - May 2027

- Relevant Coursework: Program Design and Concepts, Computing in Python, Data Structures and Algorithms

PROJECTS

Rate My Tutor • September 2024 - Present

Aggie Coding Club

- **Led a team of 7** in developing a web platform to help students to find peer tutors and TAs based on ratings and feedback
- Utilized **React, MongoDB, and Express.js** to create a responsive and scalable platform
- Coordinated project tasks, delegated responsibilities, and facilitated weekly meetings to ensure consistent progress and alignment with project goals

SwiftSupport • August 2024 - August 2024

- Created an **AI-driven** support bot for Amazon company to improve customer service operations.
- Designed conversational workflows for handling common queries and issues efficiently.
- Led to successful deployment with **20+ active users** and received positive feedback for enhanced support effectiveness.

Fl.ai.sh • August 2024 - August 2024

- Engineered an **AI-powered** flashcard application to facilitate efficient learning and retention.
- Crafted intelligent algorithms for generating and personalizing flashcards based on user input.
- Achieved deployment with **40+ active users** and received positive feedback for its effectiveness in learning.

AWARDS & SCHOLARSHIPS

Regents' Scholarship • August 2023

Texas A&M University

Magna Cum Laude • June 2023

Blanson CTE High School

SKILLS

Programming Languages & Frameworks: C++, Express.js, HTML/CSS, Java, Next.js, Python, React

APIs & Integrations: OpenAI, Pinecone, StripeAPI

Tools & Platforms: Firebase, Git, Vercel, Visual Studio
